

SYED MD FARHAN E AZAM

Data Scientist | Machine Learning | Python

syedmdfarhaneazam@gmail.com | +91-8084197610 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

Computer Science undergraduate specializing in **Data Science and Machine Learning**, with hands-on experience in Python, exploratory data analysis, predictive modeling, computer vision, and LLM-based AI applications. Skilled in using **Pandas, NumPy, data visualization, feature engineering, and supervised learning algorithms** to build predictive models end to end, backed by a strong software engineering foundation (FastAPI, REST APIs, PostgreSQL) for deploying data-driven applications.

Technical Skills

Data Science: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Data Visualization, Statistical Analysis

Machine Learning: Supervised Learning, Regression, Classification, Random Forest, Decision Trees, Linear Regression, Model Evaluation, Predictive Modeling

AI / Computer Vision: Computer Vision, Image/Video Analysis, Audio Processing, LLM Applications, Retrieval-Based Systems (RAG)

Programming: Python, Java, JavaScript, SQL

Databases & Cloud: PostgreSQL, SQL, Google Cloud Platform (GCP), IAM, Cloud Functions, Virtual Machines, Google App Engine

Development & Tools: Python FastAPI, REST APIs, React, Git, GitHub, Docker

Data Science & Machine Learning Projects

Study Buddy AI – AI / LLM Application

[The Vector X](#)

- Contributed to an **agentic AI solution** integrated with a School ERP platform to answer syllabus-based queries using **LLM APIs**.
- Designed **retrieval-based logic (RAG)** to identify previously answered queries and reduce redundant LLM API calls, improving efficiency.
- Implemented conversation history and session management, plus syllabus-specific quiz generation for automated assessment.

Workout & Calorie Prediction – Machine Learning

[GitHub](#)

- Built an end-to-end **ML pipeline** for personalized workout and calorie recommendations using structured user activity and food-log data.
- Performed **data preprocessing and EDA** to uncover relationships between activity, workout type, and calorie expenditure.
- Trained and evaluated **Random Forest and Linear Regression** models to generate personalized, user-specific recommendations.

Teacher Rating System – Computer Vision & Audio Analysis

[GitHub](#)

- Developed an **AI-based video analysis pipeline** to evaluate recorded teaching sessions across five instructional delivery metrics.
- Extracted behavioral and audio **features** (body language, facial expressions, vocal pacing) using **computer vision and audio processing**.
- Built a custom **scoring engine** to convert extracted features into structured, interpretable performance scores.

Experience

Full Stack Developer Intern

March 2026 – August 2026

BitByBitSolutions

- Contributed to the **Hamara Kendra Citizen Service Retail Portal**, a real-world government citizen services platform, building **data-driven backend APIs**.
- Developed and integrated **Python FastAPI REST APIs** for application services, handling structured data flow between the database and frontend.
- Worked with **PostgreSQL**-backed services to design and query application data supporting reporting and analytics needs.

Full Stack Developer Intern

September 2025 – March 2026

TheVectorX

- Contributed to a **School ERP platform** supporting multi-tenant architecture and large volumes of structured educational data, building responsive, data-driven interfaces.
- Collaborated with the AI team on the Study Buddy AI project (see Projects) to integrate AI features into the platform.

Education

Bachelor of Technology in Computer Science and Engineering

September 2023 – August 2027

Narula Institute of Technology

Higher Secondary Certificate (HSC), Pure Science – 82.4%

August 2021 – March 2023

St Mary's English High School

Certifications & Achievements

Certifications: Google for Developers – AI/ML Virtual Internship | Infosys Springboard – Google Cloud Platform | NPTEL – Cloud Computing | NPTEL – Programming in Java | React Development Certification | **Achievement:** Full-time offer secured from **TCS** (on-campus placement).
